

SYMBILITY SIGNS CONTRACT WITH TRADEPRO

TORONTO, ONTARIO-- (Marketwire – February 11, 2011) - Symbility Solutions, Inc., a wholly owned subsidiary of Automated Benefits Corp. (TSX:V – AUT), announces the finalization of an agreement with the TRADEPRO Network, a wholly owned subsidiary of the TRADEPRO Group LLC, a specialty trades service provider network for property damage restoration and repairs servicing property & casualty insurance carriers and self insured's throughout the United States to work together as strategic partners.

“Symbility's technology combines a cutting edge property estimating platform with a robust web based information center that allows a unique and collaborative information sharing relationship with our insurance and service provider partners,” says Mike Lees, President and CEO, of the TRADEPRO Group.

TRADEPRO specializes in structured business relationships with property & casualty insurance carriers and self insured entities. TRADEPRO has built a network of specialty trades service providers providing property damage restoration and repair services throughout the United States. TRADEPRO develops a personalized and detailed plan for recovery and manages every aspect of a restoration project through its qualified experts. They provide high quality service at competitive pricing with a strong emphasis on customer satisfaction, prompt performance and reliability on every project.

“We are pleased to be working with TRADEPRO. We are very committed to supporting contractor networks and restoration companies and this is the kind of forward thinking company we want to work with,” states Andrew deGroot, Vice President, Sales and Marketing, Symbility Solutions Inc.

About Automated Benefits Corp. and Symbility Solutions Inc.

Automated Benefits Corp., headquartered in Toronto, Canada, is a software company dedicated to developing applications for the insurance industry in North America and Europe. The Corporation currently has two platforms: Symbility and Adjudicare.

Symbility automates property insurance claims through its three complementary software components which afford users the mobility, speed and control needed to efficiently and quickly move onto the next claim. *Symbility Claims Connect* is the collaborative workflow management tool that gives every claim participant real-time access to the claims they are working on. *Symbility Inside Adjuster* is an integrated application designed to streamline the first notice of loss process which leads to faster settlement of claims. *Symbility Mobile Claims* software is an estimating tool that increases speed, efficiency and accuracy by allowing on-site claims processing.

Adjudicare is a software solution used by local insurance brokers and third party administrators across Canada in the adjudication of health and dental claims. Adjudicare's software pays claims in real time giving clients optimum flexibility along with transparent disclosure on the benefit plan's financial performance.
